

The screenshot shows a 'Find Item...' dialog box with the following fields and options:

- Item name: [dropdown]
- starts with: [dropdown]
- [input field]
- and: [dropdown]
- category is: Don't Care [dropdown]
- and: [dropdown]
- VEN category is: Don't Care [dropdown]
- and: [dropdown]
- department is: Don't care [dropdown]
- Randomly: [input field with value 0] items from returned list.
- Exclude hidden items
- Buttons: Complex Find, Cancel, Find

The items list will now display any invisible items and you will be able to able to make them visible again in the store tab.

If your mSupply system is a Primary - Satellite synced system, you can only change visibility of items on the Primary server.
