

3.08. Enter incoming goods (supplier invoices)

In some countries, an invoice for incoming goods is referred to as a “bill” - in mSupply we use “supplier invoice” to mean the same thing.

Let's suppose we have just received a shipment containing two items from Acme Pharmaceuticals, and we want to enter these goods into stock. The invoice looks like this: <HTML>

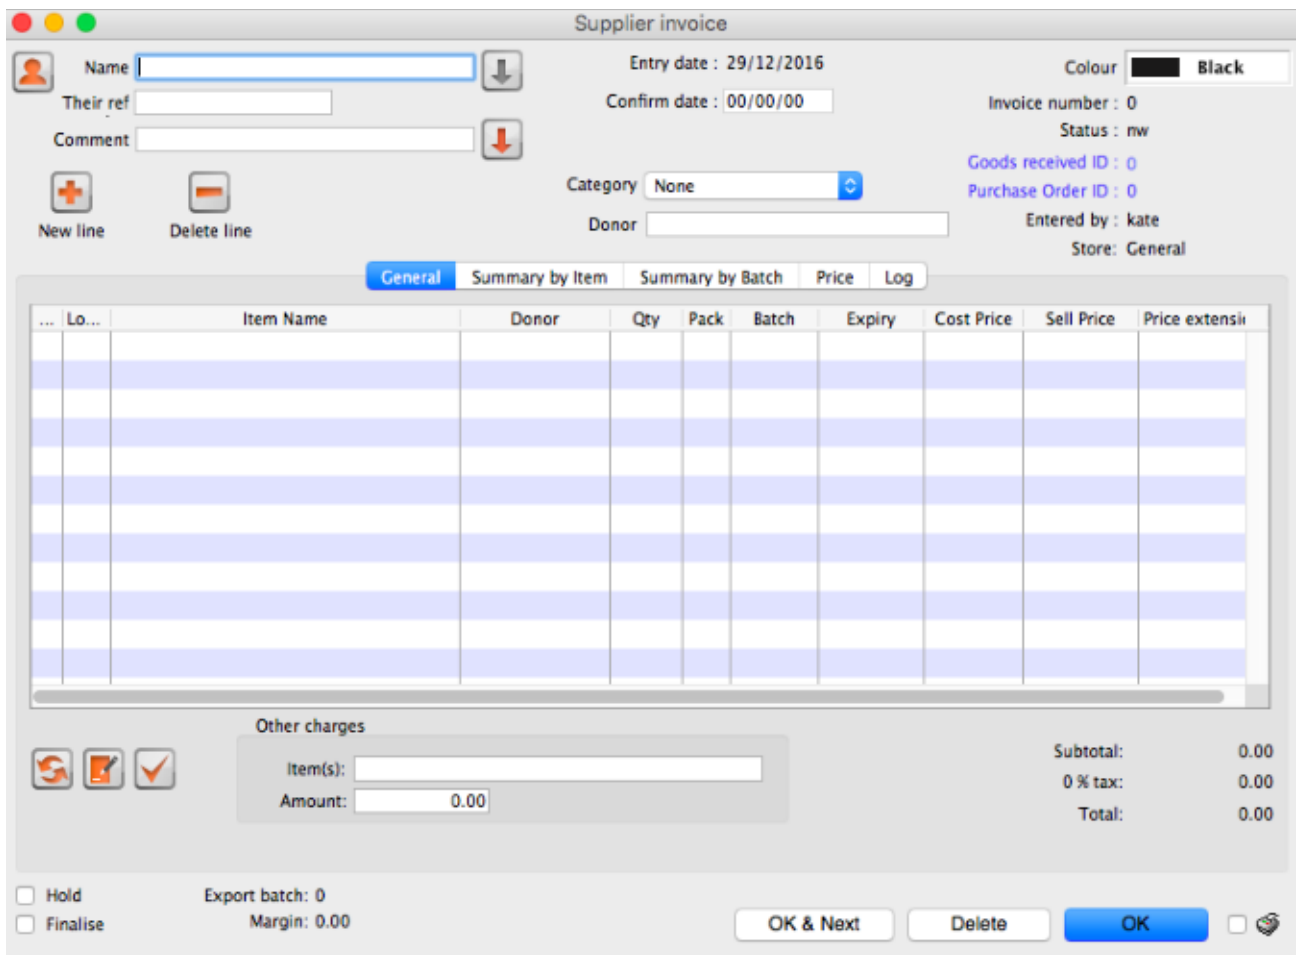

</HTML>

From: Acme Pharmaceuticals Bill: no.A939						
Item	Quan	Pack	Batch	Expiry	Price	Extension
Amoxicillin Caps 250mg	1000	100	b93333	31/12/2015	344	344,000.00
Cotrimoxazole 240mg/5mL susp	65	60	bb23d	31/10/2015	21	1,365.00
Cotrimoxazole 240mg/5mL susp	100	60	bb22d	31/01/2016	21	2,100.00
Total:						347,465.00

<HTML>

</HTML>

[Choose Supplier](#)>New invoice from the menu or mSupply navigator screen.

The cursor will be positioned in the *Name* field. Type a and then press *Tab*. If there is only one supplier whose name starts with “a”, the details will automatically be filled in.

In our case, there are two suppliers whose names start with “a”, so you will see a window listing both of these suppliers. Double-click the line containing “Acme Pharmaceuticals” to choose them for this invoice. The insertion point will jump to the *Their ref* field.

- Type A939 into the *Their ref* field. Press *Tab* to advance to the *Comment* field.
- In the *Comment* field you can type a comment or information to identify the invoice.

- Note that the margin is showing as 10 percent (the percentage that will be added to your cost price to obtain the selling price).
- Click the *New line* button to add the first invoice line. You will be presented with the window for adding invoice lines.

The screenshot shows a dialog box titled "Add/edit supplier invoice line...". It contains the following fields and controls:

- Item:** A text input field with a dropdown arrow.
- Quantity:** A text input field with the value "0".
- Pack size:** A text input field with the value "1".
- Total quantity:** A label showing "0".
- Batch:** A text input field.
- Expiry:** A date input field with the value "00/00/00" and a calendar icon.
- Location:** A text input field with a refresh icon.
- Volume per pack:** A text input field with the value "m3" and a refresh icon.
- Invoice line unit cost (NPR):** A text input field with the value "0.0000".
- Adjusted local cost:** A text input field with the value "0.00".
- % Margin:** A text input field with the value "0.00".
- Sell price:** A text input field with the value "0.0000".
- Price extension (NPR):** A text input field with the value "0.00".
- Donor:** A text input field.
- Buttons:** "New item" (with a plus icon), "Pack to one" (with a plus icon), "Cancel", "OK", and "OK & Next" (highlighted in blue).

- The cursor will be positioned in the *Item* field. Type *a*, then press *Tab*. You will see a window listing all items whose name starts with "a". Double-click the *Amoxicillin 250mg tab/cap* entry to choose it.
 - In the *Quantity* field, enter the number of packs received 1000. Note that this is the number of packs, not the total quantity of capsules.
 - Enter the pack size 100.
 - You can ignore the *Location* and *Volume per pack* fields for this tutorial.
 - Enter the batch number b93333.
 - Enter the expiry date 31/12/14 (Presuming you have dates set up to enter as dd/mm/yy. If your dates are set to the USA's mm/dd/yy format, enter 12/31/14). You only have to enter 2 digits for the year as long as the year is between 1961 and 2060. Dates outside this range must have the year entered as four digits (yyyy).
 - In the *Invoice line cost* field enter the pack cost price 344.
 - The table shown in the picture at the bottom appears if you have *Show previous purchases* checked in your preferences. It will show purchases you have made of this item in the past.
 - *Donor* is the donor who provided funds for the goods on this invoice. You can create donors by activating donor tracking in *File/Preferences/Suppliers/New Supplier* and then check the donor checkbox.

As we have another line to add, click the *OK and Next* button. The entry is recorded, and the window is now blank to accept your second invoice line.

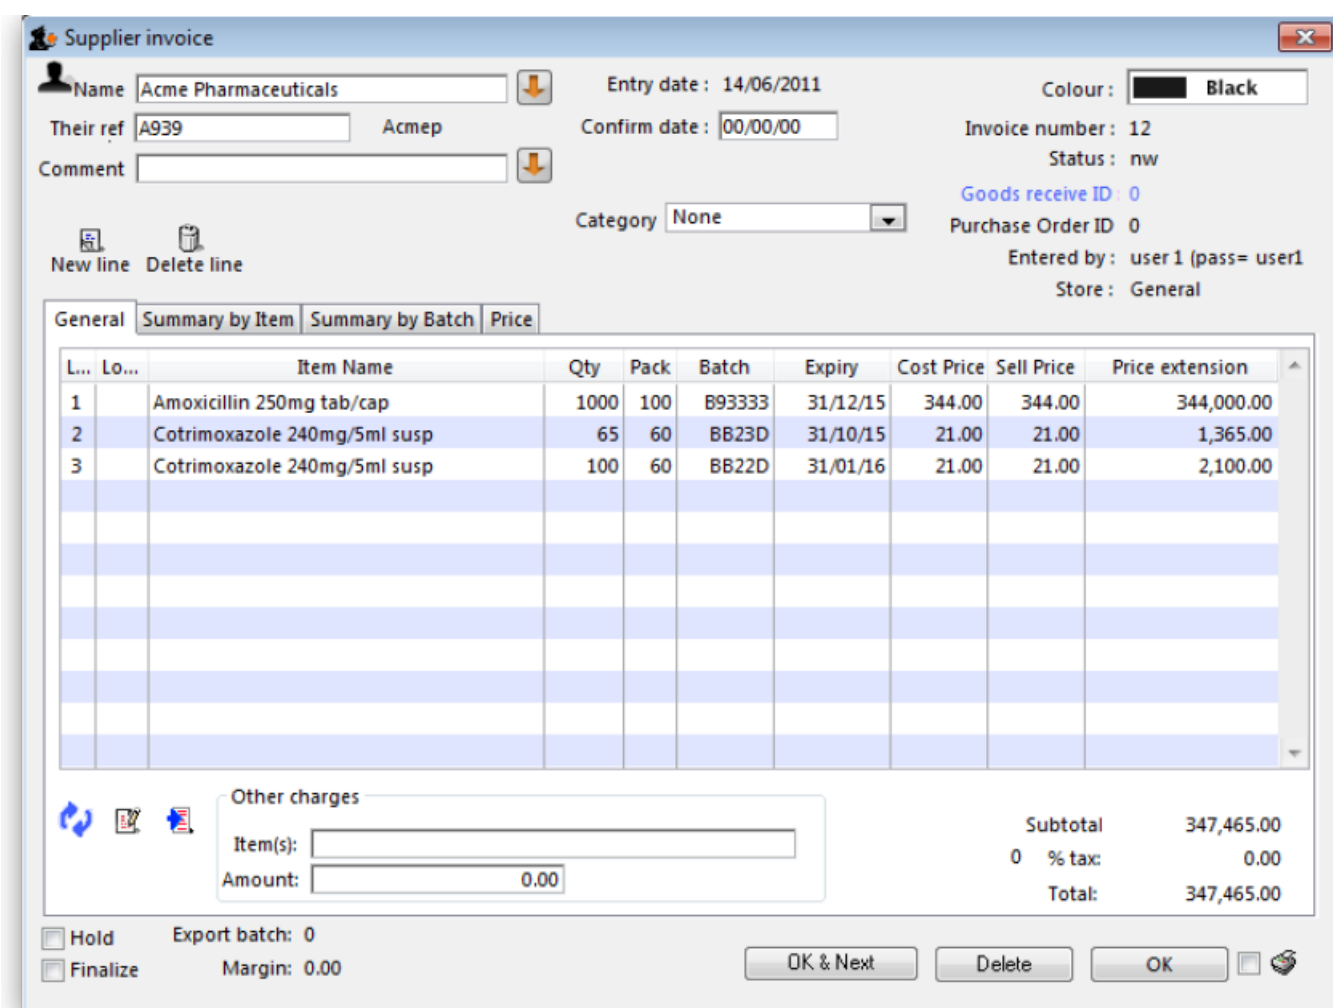

- Enter *c* into the *item name* field and press *Tab*. In the list of items showing, you will find *Cotrimoxazole 240mg/5mL susp*. Double-click the entry.
- Enter the remaining invoice details for "Cotrimoxazole 240mg/5mL susp":

- o quantity 65.
- o pack size 60. Note that it is better to record the actual volume of most packs, unless the volume is not important - e.g. with eye-drops where you could record the pack as "1".
- o batch bb23d.
- o expiry 31/12/13.
- o price 21.00 (You can just enter 21).

Click the *OK & Next* button to save the details and start to enter another item.

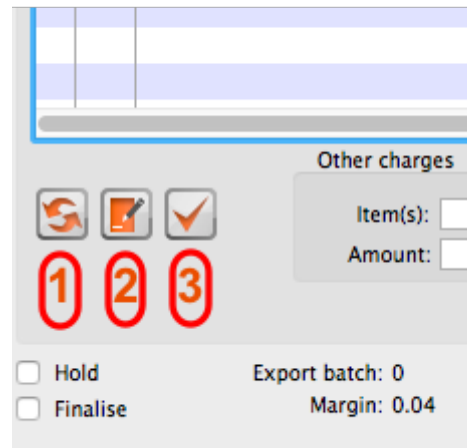

Now enter the third item on the supplier invoice from the example invoice from Acme Pharmaceuticals above. When you have finished, click the *OK* button to take you back to the main list of invoices.

Our invoice will now have 3 items added to it. The invoice total should read "347,465", and should appear like this:

If you have made a mistake, click on the relevant line, which will now be highlighted; double-clicking on it allows you to edit it. You will be shown the line details again, and you can then make corrections and click the *OK* button to save your changes.

There are 3 icons in the bottom left corner of the invoice window.

1. This allows you to rearrange the order in which the lines are shown on the invoice
2. Here you can make a note of anything relevant to this invoice
3. This will copy the details of the invoice to the clipboard

Now click the *OK* button. As long as you have left the “print” checkbox (bottom right corner) checked, you will be asked if you want to print the invoice (you may do so). Note that when you print, you are shown two windows. The first window is the page setup for your printer, the second window allows you to specify how many copies to print, etc. (The second window also has a “preview” checkbox, where you can preview the print job).

As this invoice is a “supplier invoice” it has been “confirmed” when you clicked the OK button in the invoice entry window. You can view and edit the invoice details until the invoice is finalised. Note that if you issue some of the stock you have just entered to a customer, some fields will no longer be editable.

NOTE: as of mSupply v190, a more precise alternative for entering received goods has been implemented. See section [7.02. Goods receipts](#) for information on viewing and editing supplier invoices created via Goods Receipts.
